

Activities

Abbot Tank & 432 Armoured Personnel Carrier

A 17 ton tank with 105mm Howitzer capable of shooting over 10 miles. Ideal in hard off-road conditions and very easy to drive. 432 APC, the battlefield van is multipurpose from ambulance to rocket launcher.

Lance and Hagglund

Lance missile supply vehicle. American built amphibious tracked craft. Very smooth and responsive with only 5 in the world privately owned. Hagglund is of Swedish origin was used by the British Royal Marines designed for snow but very impressive on sand and mud. It also carries 18 people so makes a great off road taxi currently being used in Iraq in the British sector.

SAS Skills and Woodland Patrol

Learn the secrets of the SAS by a genuine ex SAS soldier then use your new skills when you try and cross his jungle. You're all doomed!

Weaponry

Sixty minutes of fascinating weapons demonstration and briefing showing the reality of weapons and combat and a close look at IRA constructed bombs made with household items. Everything from a German Luger to a two and a half ton field gun

Radio Controlled Plane Shooting

The team has to wipe out the aerial attack of Stealth bombers travelling at speeds of up to 100mph. Unlimited supply of planes and cartridges.

The Car Crush

The highest scoring recruit will win the Grand Finale, to crush a family saloon with a 55 ton Chieftain main battle tank. The objective being to put one track up the centre of the car and flatten it, leaving the door open in perfect condition, this makes a perfect photo opportunity!
